

Theatres Trust
Architectural Plans
Catalogue:
Regional Theatres

About the catalogue

This catalogue was created as part of the HLF funded Open up! project to catalogue the collection of architectural plans of regional theatres held in Theatres Trust's archive.

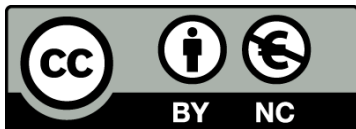

The architectural plans have been grouped together based on which building project they relate to, and each project has an entry on the catalogue.

As much of our material has been acquired at the planning stage, some of the material in the collection relates to projects which were later amended or which never went ahead. Where possible, the catalogue entries have been cross-referred to planning application numbers for you to investigate further. You can often find out more information through the planning portal on the relevant local authority's website.

Theatre ID no.s relate to the ID no.s used on the Theatres Trust's [Theatre's Database](#).

Although the majority of our regional theatre plans have now been catalogued, there are some plans and other material in our archive (correspondence, photographs, press cuttings etc.) which have not yet been catalogued. Please contact us if you can't find what you are looking for by emailing info@theatretrust.org.uk.
